# MOHD ISMAIL KHAN

**INFORMATION TECHNOLOGY GRADUATE**

Hyderabad, Telangana | 7386767409 | mohdismailkhan20041@gmail.com

LinkedIn: linkedin.com/in/mohd-ismail-khan-144296336 | GitHub: github.com/Ismail523

## PROFESSIONAL SUMMARY

Recent B.E. Information Technology graduate with internship exposure to Machine Learning and Generative AI and ongoing MERN Stack Web Development training. Interested in software and web development, with academic project experience in NLP-based malware classification and machine-learning-based Android malware detection. By the working on the projects was able to explore the NLP and Cybersecurity Domains.

## TECHNICAL SKILLS

**Web:** HTML, CSS, Tailwind CSS, JavaScript **|** **MERN Stack:** Currently training at Skills Development Hub

**Machine Learning / Data:** Python, scikit-learn, NumPy, Pandas, Matplotlib

**Tools / GUI:** PyQt5

## PROJECTS

**NLP-Based Malware Classification Using Source Code Analysis (College's Major Project)**

- Major project focused on applying Natural Language Processing (NLP) and source-code analysis to classify malware.
- Explored the use of source-code patterns to support malware identification and software security.

**Intelligent Pattern Recognition Using Equilibrium Optimizer with Deep Learning Model for Android Malware Detection (College's Minor Project)**

- Developed a Python-based desktop application using PyQt5 to analyze Android malware datasets containing static and dynamic features.
- Implemented data upload, preprocessing, train-test splitting and comparison of Random Forest, SVM, KNN, Decision Tree, and Logistic Regression models.
- Displayed model evaluation metrics including accuracy, precision, recall and F1-score, with comparison graphs and malware prediction.

## INTERNSHIP EXPERIENCE

**Machine Learning Intern |** SystemTron | On-site | May 2025 – June 2025

- Gained practical exposure to Machine Learning concepts, data-driven workflows, and applying ML techniques to practical problems.

**Generative AI Intern |** SystemTron | 4 weeks | May 2025 – June 2025

- Explored Generative AI concepts, applications, and modern AI workflows.

## PROFESSIONAL TRAINING

**MERN Stack Web Development — Skills Development (SD) Hub | Currently pursuing**

Developing practical knowledge of modern web development, Front-End technologies and web application architecture.

So far able to build scalable static web-sites.

## EDUCATION

**B.E. in Information Technology —** Nawab Shah Alam Khan College of Engineering & Technology, Hyderabad | 2022–2026 | Completed June 2026

**Intermediate (MPC) —** Anwar Ul Uloom Junior College, Nampally, Hyderabad | 2020–2022

**SSC (10th) —** St. Joseph's High School, Vijay Nagar Colony, Hyderabad | 2008–2020
